INFRASTRUCTURE

Location : Vignesh is a registered organisation under the SSI. The company was founded in K.K. Nagar, Chennai - 78. Later we moved to our own premises in Ramapuram, Chennai - 89. Now we are put up at Veeraraghavapuram on Avadi Road with a good administrative set up in an area around 7200 sq.ft in a spacious premise owned by ourselves.

Workspace : The premises we posses in Veeraraghavapuram has enough floor space for manufacturing note books, printing, job work and stationery. It has a three phase electricity supply, available 24 hours without any interruption being located.

The loading and unloading (raw material / finished product) can be done 24 hours due to accessibility of all weather roads right up to our manufacturing premises.

Manpower : We have technically qualified staff working in various departments. Our workers are efficient, dedicated and skilled. Proper care is taken for timely delivery. Highly skilled and semi skilled manpower is easily available. We are capable of recruiting additional manpower if needed.

MANUFACTURING CAPACITY:

192 Pages Perfect Binding Small Size Note Books - 32,000 note books per shift

192 Pages Perfect Binding Long Size Note Books - 16,000 note books per shift

Per shift the unit covers 1,00,000 sheets in ruling 80,000 papers in folding and 32000 copies of short size note books in perfect binding and 30,000 notes books in cutting machine per shift. We can feature enhance our production if required.

Process:

The process involved in manufacturing of note books is mainly divided into three parts.

1. Ruling of paper according to the product
2. Binding
3. Finishing and Packing

Ruling : In this process blank paper, the principal raw material for manufacturing is passed through ruling machine and with the help of metal discs and ink, lines as per our requirement are printed on paper. The various kinds of ruling are single ruling, double ruling, four ruling etc. The paper size is decided according to the final size of the product.

Binding : One of the important process for manufacturing of note books is binding. It is a set of process like counting, folding, perfect binding / stitching, and cutting of paper. All process are decided according to our final requirements. Various machines are used to carry our these process like Paper Cutting Machine, Stitching Machine etc. Also variety of raw material apart from paper like straw board, binding cloth, stitching wire, binding glue, duplex board and others are consumed at various stages of this process.

Finishing and Packing : Last but not the least is the final cutting and packing stage. In this stage note books are trimmed according to the final cutting and packing. Note books are cut according to the required sizes example long size, crown size, small size etc. The set of note books are tightly strapped in packing machine. The finished product is now ready for dispatch.
